## LX9-LF900 REQUIREMENTS Clinicians must complete this section and provide to your patients

### TREATMENT OPTIONS Choose standard or custom settings →

Mode A Pre-Treatment + Sequential	Pre-clearance runs for 6 cycles or 12 minutes approx. Followed automatically by sequential inflation for the allocated treatment time set on the device.	
Mode B Classic Sequential	Fluid is moved sequentially, distally to proximally	
Mode C Distal oedema	Four compressions on distal chamber before inflating sequentially	
Mode D Wave	Garment fills two chambers at any one time in a wave formation, followed by classic sequential	
Pressure Range 20 - 180mmHg	Session Duration 5 - 90 minutes, or continuous	Cycle Speed 1 - 6 (slowest - fastest)

### STANDARD SETTINGS

The following settings are programmed unless 'custom' is selected.

Mode B

Pressure: 40mmHg

Time: 60 mins

Speed: 4

Only 1 value for each. Do not specify a range

### OR: CUSTOM SETTINGS

Only 1 mode may be selected:

Mode A  Mode B

Mode C  Mode D

Pressure: -----

Time: -----

Speed: -----

### GARMENTS

Our staff will determine sizing dependent on the measurements you fill out overleaf

Garment/s reqd:

One leg  Trunk

Two legs  Arm sleeve

## MEASUREMENTS

Measure your patient  
in relevant areas to  
determine sizing

### 1. LEG GARMENT

1a. Inner leg length - from groin to heel: ..... cm  
This determines size of garment S/M/L.  
(Only one measurement needed)

1b. Widest thigh circumference:  
Left ..... cm      Right ..... cm

1c. Widest calf circumference:  
Left ..... cm      Right ..... cm

### 2. TRUNK GARMENT

2. Widest abdominal circumference: ..... cm

### 3. ARM SLEEVE

3a. Widest upper arm circumference (from under armpit): ..... cm

3b. Length of arm from armpit to fingertip: ..... cm

## 1. OVERLAPPING LEG GARMENT

Garment sizes come in S/M/L with circumference options of Standard/Wide/X-Wide. Medi-Rent customer service will determine the best size based on the measurements provided.

Largest sizes we can accommodate in LX9-LF900 leg garments:	
Leg length	89 cm
Thigh circumference	102 cm
Calf circumference	88 cm

If you have a leg measurement greater than one of the measurements above you may need to consider custom-made Biocompression leg garments. Please note these custom garments cannot be rented and use the Biocompression pump. See our Biocompression referral sheet.

## 2. TRUNK GARMENT

One size with  
3 built-in zippers

	B	C
Circumference on widest fitting*	133 cm	74 cm
+ 1 pair extensions	153 cm	84 cm
+ 2 pairs extensions	173 cm	94 cm
+ 3 pairs extensions	193 cm	104 cm

\* Three built-in zippers mean this garment can be made smaller than the measurements listed here

## 3. ARM GARMENT

		Largest fitting
A	Widest upper arm circumference	60cm
B	Longest arm for full finger coverage	68cm
